

EzyStart

Lawn Starter and Renovation Organic Based Fertiliser

N. P. K.

6 - 2.5 - 3.7

APPLICATION: For best results **Burnet's** recommend applying **EzyStart** Spring, late Summer and Autumn.

DIRECTIONS: When starting a new lawn prepare soil and then spread **EzyStart** evenly at a rate of 20g per sq metre. Sow Lawn Seed, lightly rake in, firm down and then water.

For renovation loosen soil in any bare patches, lightly add a sprinkle of lawn seed. Spread **EzyStart** over the entire lawn at a rate of 25g to 40g per square metre, depending on the lawn's deterioration and then water in.

BENEFITS:

- **EzyStart** enhances seed germination plus root formation.
- **EzyStart** contains standard release fertiliser for rapid renovation recovery.
- **EzyStart** contains slow release fertiliser for long term controlled response.
- **EzyStart** contains mini prilled Gypsum to improve soil structure.
- **EzyStart** contains soil wetting agent for increased water penetration & plant recovery.
- **EzyStart** contains granular humic acid, and organic catalysts which increase soil microbial activity promoting soil structure and rapid growth recovery.
- **EzyStart** contains a unique methylene urea and extended release potassium combination which helps increase the plants tolerance to stress.
